## **IX. REVIEW CRITERIA**

Requests for rezoning are evaluated on the following criteria (see Section 154.616 for additional detail). Please respond to each of the criteria, indicating how the request meets each standard. Please address each of the criteria completely. Feel free to include photos, illustrations, drawings, letters of support, or any other information to demonstrate how the standards will be met. Attach additional sheets as necessary to address each of the criteria.

- (1) Consistency with the goals, policies, and future land use map of the City's Master Plan, including any subarea or corridor studies. If conditions have changed since the Master Plan was adopted, consistency with recent Development trends in the area shall be considered.
  
- (2) Compatibility of the site's physical, geological, hydrological and other environmental features with the host of Uses permitted in the proposed zoning District or Civic Zone.
  
- (3) Evidence the applicant cannot receive a reasonable return on investment through developing the property with one of the Uses permitted under the current zoning.
  
- (4) The compatibility of all the potential Uses allowed in the proposed zoning District with surrounding Uses and zoning in terms of land suitability, impacts on the environment, density, nature of use, traffic impacts, aesthetics, infrastructure and potential influence on property values.
  
- (5) The capacity of City utilities and services sufficient to accommodate the Uses permitted in the requested District without compromising the health, safety and welfare of the city.
  
- (6) The apparent demand for the types of Uses permitted in the requested zoning District in the City in relation to the amount of land in the City currently zoned and available to accommodate the demand.

- (7) The boundaries of the requested rezoning District are reasonable in relationship to surroundings and construction on the site will be able to meet the dimensional regulations for District listed in the schedule of regulations.
  
- (8) If a rezoning is appropriate, the requested District considered to be more appropriate from the City's perspective than another zoning district.
  
- (9) If the request is for a specific Use, is rezoning the land more appropriate than amending the list of permitted Uses or Special Permitted Uses in the current District to allow the Use?
  
- (10) The requested rezoning will not create an isolated and unplanned spot zone.
  
- (11) The request has not previously been submitted within the past one year unless conditions have changed or new information has been provided.
